- SSC | Sri Vignan EM School, Samarlakota - Graduated: 2022

SKILLS:

- Technical Skills: C, Python
- Soft Skills: Time Management , Teamwork and Collaboration

PROJECTS:

Hackathon – “Menstruation Care” | 02 February 2026 | [LINK](#)

- Designed and developed a user-friendly digital prototype using *Figma* to promote menstrual health awareness and tracking.
- Created an interactive interface that helps users understand menstrual cycles, hygiene practices, and lifestyle recommendations.
- Integrated features to track menstrual cycles, monitor symptoms, and provide guidance on diet, hydration, and exercise.
- Conducted research on PCOS/PCOD, menstrual health, and hygiene practices to ensure accurate and informative content.
- Developed visual content (posters & illustrations) to educate users and reduce stigma around menstruation.
- Focused on accessibility and simplicity, making the solution suitable for young users and individuals in rural areas.
- Prototype: [Figma Design Link](#)
